

Hi-Flo[®] HDPE
Duo - Double Wall Pipe

Atlantic Industries Limited
We Support You.

A double wall pipe with a smooth inner wall for optimum hydraulic flow

Hi-Flo HDPE Duo pipe from AIL is a corrugated double wall pipe with a smooth inner wall for optimum hydraulic flow.

RECOMMENDED FOR

- ▶ Storm sewers
- ▶ Drainage culverts
- ▶ Ditch piping
- ▶ Potato vent pipe
- ▶ Dock pontoons

Fabricated from High Density Polyethylene, Hi-Flo HDPE Duo is ideal for storm sewer and drainage pipe applications and is available in diameters from 100 mm - 900 mm (4" - 36"). It has a stiffness of 320 kPa, designed to meet the requirements of CSA B182.8 and BNQ 3624-120. Hi-Flo HDPE Duo pipe is also available in 210 kPa stiffness which is ideal for forestry applications.

Features and Benefits

Lightweight

- ▶ Material handling requires less equipment on the job site, reducing installation costs

Hydraulic performance

- ▶ Smooth interior wall ensures optimal flow for sewer applications

Chemical- and corrosion-resistant

- ▶ Resistant to corrosion chemicals such as de-icing salts

Durable

- ▶ Durable against all weather conditions
- ▶ Withstands freeze and thaw cycles

Field cutting

- ▶ Pipe can be quickly cut/trimmed as needed with tools readily available on most construction sites

Nestable for shipping

- ▶ Reduced transportation costs, leading to reduced greenhouse gas emissions

Applicable standards

Manufactured to the following standards

CSA B182.8, BNQ 3624-120
